Our selection of industry leading machines

Economiser

A low cost, reliable wrapping machine. Able to wrap 2.2m high and up to 15 pallets p/hr. Featuring 1400mm dia turntable with 1.5 tonne capacity, friction brake film head and mast lift by a Jarret brake winch. Non dedicated parts for ease of maintenance. Fork lift transportable.

Maximiser

The ultimate in semi-auto wrapping machines. Featuring a low profile, 1500mm dia turntable with 3.0 tonne capacity, able to wrap up to 25 pallets p/hr, push button controls and a 2.4m wrapping height. Options include friction brake or controlled stretch or power-controlled stretch units. Also available in high profile.

Horizontal

Speed and reliability delivering up to 6m/min wrapping speed. Featuring a heavy duty drive ring, control stretch film head, pneumatically operated top pressure clamp and rollers, grab cut and hold unit and user friendly controls.

Overarm

High speed, fully auto performance. Standard features include a 2.4m wrapping height, power controlled stretch film head and automatic grab, cut and hold unit. Optional extras include in line top sheet dispenser and power roller conveyors.

Modular 5

A fully auto wrapping machine designed to suit your needs. Features a 3 tonne turntable and conveyor capacity, wrapping speed of up to 75 pallets, power controlled film head, auto grab, cut and wipe system and a 2.2m std wrapping height. Options include an extended 2.6m mast, top sheet dispenser and 750mm film head.
